## Skills:

### Expertise

- HTML
- CSS
- Javascript(ES6)
- Tailwind
- Bootstrap
- React

### Comfortable with

- Mongodb
- Send Grid
- React Typescript
- Firebase
- Authentication
- Stripe

### Tools

- Payment Gateway
- Figma
- Netlify
- Heroku
- GitHub
- Dev tool

## Projects:

### 1. Tools Manufacturing Company website

**Technology used:** React, TailwindCSS, NodeJS, ExpressJS, MongoDB

#### Feature:

- Full stack responsive web application
- Users can buy tools as much as they want.
- Users can go to the dashboard and pay for orders or cancel their orders.
- Admin can see all orders and their payment status in the dashboard. They can also ship paid orders.
- Admin can make normal users to an admin also they can add or delete products.
